

Job Description

About Us:

IMSOLUTIONS, LLC (IMS) specializes in providing management and cost analysis support to government and commercial agencies. Our consultants have extensive experience working with the Department of Defense (DoD), Department of Treasury, USAID and other federal agencies. We have supported projects ranging from the acquisition of major weapon systems to the re-engineering of organizational operations. IMS has experience with working effectively at all levels of the organizational team including Integrated Product Teams (IPT).

Our Mission is to establish a flexible, best value, solution oriented organization which provides quality and innovation management support services that will result in value added solutions and satisfied customers.

Status:

Employee, Exempt

Cost Analyst Level IV

Position Description:

IMSolutions, LLC is seeking a Cost Analyst Level IV to support a Federal Government Client with the execution of its current workload and to enhance its own internal capabilities. The Candidate will prepare and conduct comprehensive cost analyses and modeling in support of requirements for acquisitions/systems managed by the Government, providing independent analysis of requirements in order to estimate life cycle costs. Perform and document a variety of cost and economic analyses (i.e., parametric cost estimates, cost and schedule estimates, life cycle cost analyses, cost estimating relationship development, model development, cost risk analyses, project forecasting, risk assessment, cost-benefit analyses, and software cost estimating) in order to determine costs and risks involved, as well as approaches to minimize both. Support implementation of Will Cost/Should Cost policy and estimates.
